Offer

Business Intelligence and Big Data

Bismart is a company that specializes in Business Intelligence and Big Data solutions for various sectors. Bismart's recent success has been with its bigov Transparency, Open Data and Better City Indicators software solutions that are developed with the City Protocol Society's guidelines in mind to create smarter, more inhabitable cities. Bismart has been a strategic partner of Microsoft since 2011 and works closely with the software giant to develop personalized, user-friendly solutions using Microsoft SQL, Azure servers and HDInsights to fight against government corruption and improve the quality of citizens' lives. Bismart is currently expanding its business into five new continents.
