Description
Created in 2003 by Mobile Networking specialists, Ouroboros provides Mobile Core technologies, expertise and products for Operators and Partners around the world. Mobile Communications is a fast-paced business environment that requires Operators to keep deploying new services while maintaining Network consistency and reliability. Thanks to its flexibility and experience, Ouroboros helps Operators and Telecom Integrators to quickly bring new ideas to life and leverage network investment. Whether you need to quickly launch a new innovative service or implement a Core function in your Network, Ouroboros will support you in the process from requirements definition to deploying in production environments.
