Description

Interactius is a small company based in Barcelona that offers user experience consultancy, evaluation of usability and accessibility, and design of user centered solutions.

We have our own UX laboratory to evaluate all kind of interactive multiplatform interfaces. We also use user centered techniques to ask for the user requirements and to create a better interaction experience and optimal design.

We are looking for new partners, mainly application development and/or online marketing companies.

Areas of Activities

SOFTWARE/INTERNET

1. Application development
2. Content management
3. Data analysis

SERVICES/OTHERS

1. Business support systems
2. Education and training
3. Mobile advertising and marketing

Offer

UX, Usability and Accessibility evaluation

Evaluate the usability and accessibility of your mobile applications in our laboratory to improve the User Experience of your customers.

Using advanced technologies like Eye tracking, we can measure the ratio of success in completing tasks, efficiency and user satisfaction when interacting with your applications, so we'll be able to detect opportunities for improving the design of the interface and optimize the use and success.
