Description

Tuso Technologies is the maker of Fiabee, Locategy and Open API. These cloud-based Solutions are enterprise-caliber, carrier-grade, Value-Added-Services (VAS) with broad platform support and online/offline capabilities, including: iOS, Android, HTML5 app for Firefox OS, Ubuntu, Chrome OS, Mac OSX, Blackberry, Windows desktop and mobile.

FIABEE is a Collaboration, Synchronization and Sharing Cloud Service that competes head-on with Dropbox with differentiated granular administrative controls and competitive pricing.

LOCATEGY is a mobile App that enables parents to protect their children by knowing their whereabouts, the calls they make/receive and Apps they use and provide administrative control to limit excessive usage.

OPEN API is an Application Programming Interface that provides significant platform extensibility, enables rapid application development and integration with third party systems. Broad platform support, including a deeply

Tuso Technologies Solutions are provided co-branded or white labeled through Telecom Operators (mobile, virtual mobile, cable, fixed), Internet Service Providers (ISPs), Managed Service Providers (MSPs), Independent Software Vendors (ISVs) and other cloud service providers.

Telefonica, France telecom (Orange), Ono (Vodafone) and Panda Security, among others, have selected Tuso Technologies as their partner to provide differentiated Value-Added-Services (VAS) to their subscriber bases.

Tuso Technologies Solutions are delivered as a Software-as-a-Service (SaaS) on a public cloud with Amazon Web Services (AWS) or on premises (private cloud).
