Description
Belighted is active in web and mobile applications development and expertise, and in UX/UI (user experience / user interface) services. The company is an agency with offices in France and in Belgium.

Our 12 experts in the web & mobile apps field (specialized in Ruby on Rails, HTML5, CSS3, AngularJS, iOS, Android, MongoDB, etc.), with the extensive experience they have acquired since 2008, can help start-ups and enterprises to design and build custom-made intuitive software using the most innovative technologies.

Moreover, in 2014, the company developed an innovative mobile ERP for consulting firms.

Offer

## Distribution of mobile ERP for consulting firms

We are the makers of an innovative ERP (http://getscale.io) targetting consulting firms, and are looking for distributors / resellers / commercial partnerships in European countries.

This app enables to streamline the business data of the user, from sales to production to getting paid. Concretely, it allows to:
- Organize all contacts information;
- Follow the sales opportunities from lead to contract;
- Deconstruct the project in nested tasks, and so, the budget and the schedule;
- Obtain an instant view of the staff planning;
- Keep track of the projects spendings;
- Get paid faster;
- Make decision on actionable data like team usage rate, profitability, expected revenue, and much more.

Cooperation Offered

1. Sales / Distribution

Offer

## Custom-made mobile and web apps development and UX/UI services

We offer to design, develop, manage, maintain and market gorgeous mobile and web apps. We propose fixed-price packages which limit risk and can fit in all budgets. We are able to design custom-made web or mobile software that perfectly suit the partner needs. We can respond to specific demands around:

- E-commerce;
- ERP;
- CRM;

- Dashboards;
- APIs;
- Hybrid apps;
- Responsive websites.

Cooperation Offered

1. Outsourcing co-operation
2. Technical co-operation
3. Manufacturing agreement
