## Offer

## **Partner for mobile apps development**

Movion is a mobile application provider, focused on mobile apps development for BlackBerry 10, BlackBerry Legacy and Android platforms.

We usually work as a third party provider or a partner of other software development companies.

**Keywords:** Mobile apps BlackBerry BlackBerry 10 BlackBerry Legacy Android Partner

### **Cooperation Offered**

1. Manufacturing agreement
2. Technical co-operation
3. Outsourcing co-operation

### **Offer**

## **Smartphone attachments for mobile data reading (barcode, RFID, passport reading, fingerprint, ...)**

We are looking for IT integrators who need to incorporate to their mobile solutions the ability to get data from real world.

We offer mobile data capture/verification devices that you can integrate in your mobile solution, adding possibilities such as barcode, RFID, magnetic stripe reading, passport reading, fingerprint reading, etc., extending the hardware capabilities of smartphones and tablets.

You can find our devices in checkin processes of passenger transport companies, reading passports and boarding tickets, in control access and identification, reading identity documents and/or fingerprint, in retail and logistic companies, using barcode and/or RFID reading, etc.

We will help you with integration process, providing the SDK of the devices and supporting your IT team.

**Keywords:** RFID for Android RFID for iPhone Barcode reader Barcode reader for Android Barcode reader for iPhone Passport reader for Android Passport reader for iPhone

### **Cooperation Offered**

1. Sales / Distribution
2. Technical co-operation

### **Cooperation Requested**

1. Sales / Distribution
