- 04.03.2015 Wednesday (15.15h - 16.55h)

Description

Passionate about ICT technologies, I keep on learning and transferring knowledge be it through social networks, curation, training, conferences or face 2 face. I'm eager to apply ICT technologies to all domains making sure the integration is smooth and efficient from a technology perspective but also from a human and financial perspective. On a daily basis, I focus on the acquisition, usage and integration of ICT technologies at my customers (and myself, of course). I can play 3 roles in a company: - As a member of the board to align the ICT strategic vision to the business and market requirements; - As a member of the management committee helping the general management defining a strategic vision for the use of ICT technologies in the company; - As change manager for implementing the ICT strategic vision in company's projects. I'm open to any inquiry, be it in Belgium or abroad. Spécialisations :The Internet: Social, Commercial, Informational; Cloud Computing; Business Models, Product definition; Negotiations; Broad IT market knowledge;
