Description

Flirtie is the new App to meet interesting people around us in a complete and fun way. You can customize your profile with photos, description and interests and you can also link your Instagram account. Then, Flirtie suggests profiles of other users and for each of them you have to choose whether or not you are interested. If two users like each other, Flirtie creates a date (chat) of 7 seven days where they can talk, send pictures that will remain or will be deleted after maximum 10 seconds and where they will be able to do videoconferencing.

Request

Investment for MKT

We have more than 60.000 users in Spain in less than 1 year and we want to expand Flirtie to other countries.
