

BRUNO SAGNER

EYETOK

BILATERAL MEETINGS

02.03.2015 Monday (15.10h - 18.05h)

DESCRIPTION Eyetok is a unique and global service based on a mobile app to watch live what's going on anywhere in the world, through other people's smartphones live video streaming, like they were your eyes.

Any smartphone turns to be a "walking webcam", you can contact and interact with, in real time, to look at what others are seeing. Plus, receiver can guide broadcaster and interact with, while video streaming in real time, through chat and driving arrows (as joystick, to guide broadcaster). And this is unique.
