- 04.03.2015 Wednesday (15.15h - 16.55h)

Description

Yup Charge builds high-speed charging stations for mobile phones and devices, allowing people on the go to recharge in public places like shopping malls, airports or cafeterias.

We have also developed a free App, so that customers may know at all times where they can find the nearest charging stations. Our state-of-the art iBeacon technology enables our partner venues to make interactive offers visible within a given location and attract potential customers who are close-by.

Moreover, our App allows customers to order food at any time and send a message to your waiter directly from the table. You will be able to ask for the bill whenever you are ready to go. Convenience at your fingertips
