- 02.03.2015 Monday (13.05h - 15.10h)
- 02.03.2015 Monday (15.10h - 18.05h)
- 03.03.2015 Tuesday (15.15h - 16.55h)
- 04.03.2015 Wednesday (9.00h - 11.05h)
- 04.03.2015 Wednesday (11.05h - 13.10h)
- 04.03.2015 Wednesday (13.10h - 15.15h)
- 04.03.2015 Wednesday (15.15h - 16.55h)

Description

Reach-in allows anyone in the world to control physical machinery directly from their computers. The technology has powerful uses in education, safety and plant management, and also in marketing and private industry allowing general internet users to PHYSICALLY control product and machinery via the web.

As an example, the technology allows remote personnel (from education to triage surgery) to PHYSICALLY help others that are geographically separated. They can point out trauma sites on a patient by controlling a precision laser pointer, or they can open and close safety valves and evacuation pumps from safe distances. All without leaving their office.
