DESCRIPTION Beddit is a Finnish, fast-growing start-up specialized in sleep and wellness. Acting in the booming mobile healthcare market, our vision is to give people an insight to their sleep and wellness and to encourage them to improve both. The Beddit Sleep Monitor is an ultra-thin sensor that is placed under the bed sheet. Just sleep on it - no wearables needed. You can wake up refreshed during an optimal sleep phase using the Smart Alarm -feature. Every morning the Beddit App gives you an overview of your sleep quality based on heart-, respiration rate and night time events (e.g. snoring, bed exits).
