## Bilateral Meetings

- 02.03.2015 Monday (11.00h - 13.05h)
- 02.03.2015 Monday (13.05h - 15.10h)
- 02.03.2015 Monday (15.10h - 18.05h)
- 03.03.2015 Tuesday (9.00h - 11.05h)
- 03.03.2015 Tuesday (11.05h - 13.10h)

## Description

InfinIT is a bronze-labelled cluster.

InfinIT is a Danish network for innovative utilization of IT. Our goal is to convert the infinite possibilities that technology offers into concrete collaborations between research and industry. Therefore, we invite researchers and enterprises working with or using IT to participate in collaboration projects and the exchange of knowledge, thus creating a forum where we can work together to generate exactly the knowledge that Danish industry and society needs - whether in terms of embedded systems, mobile technology, security, big data, wearables or something else entirely. Welcome on the journey to the future! Major activities The work in infinIT builds upon close collaboration between research and enterprises. We perform both strategic activities and research activities, of which the major part take their point of departure in a number of interest groups consisting of representatives from both research institutions and enterprises. As such, the activities will be adapted to the needs and challenges that Danish industry faces. As such, our major activities are: interest group meetings where researchers and personnel from participating companies exchange knowledge and experiences within a specific field of interest. At the moment, these include: Big Data & Business Intelligence Processes & IT Security Future Technologies in Smart Society Embedded Systems Engineering Tracking and Positioning Technologies Usability and interaction design Wearables.

Areas of Activities

**SOFTWARE/INTERNET**

**SERVICES/OTHERS**

Request

### **European ICT clusters to partner up for collaboration**

We are looking for European ICT clusters interested in seeking common funding for networking and project activities within the Horizon 2020 program and similar programs.

Keywords: Horizon 2020 cluster ICT network

Offer

### **Cluster collaboration**

Collaboration with the only publicly funded Danish innovationsnetwork for ICT.

We are a bronze-labelled ICT cluster.

We have 1300 members from public and private organizations.

Our goal is to establish development projects making universities and private companies collaborate.
