Description

Mondial Telecom's technical expertise and 4Talk product range delivers smart and simple Fixed-Mobile Unification (FMU) solutions to Telecom Operators, Integrators and Value Added Resellers. Through intelligent backend network management and simple frontend interfaces our 4Talk products are designed to work on multiple devices (Mobiles, Smartphones, Tablets, Computers and Desk-Phones), bringing a true unification experience to end customers across PSTN, IP (3G/4G, Wifi,...) and GSM networks. With over 10 years of software development experience in the telecoms industry and several Tier 1 implementations, Mondial Telecom is your Fixed-Mobile Unification partner.
