Offer

keyless sharing solution

Offer new experiences to your customers thanks to our mobile application for bookings and our Keyless system to access to vehicles from a Smartphone.

Real-time solution for sharing or renting bookings without early planning. Customers can locate and book the closest available vehicles using their Smartphone. They can also unlock, lock and start the vehicle using their Smartphone as a key. After parking, drivers can easily find their vehicle thanks to the vehicle geolocator.

Operators can easily manage the bookings and get a real-time report of their fleet: on by one vehicle status. They can check the states of their fleet only by one click.

Exploit all the possibilities of your business by facilitating vehicle sharing. Get connected to your vehicle in the easiest way by using the Smartphone as a key. Create unique user experiences to reach new markets, develop new business strategies or increase market share. Being different from your competitors, creating exclusive solutions adapted to your business.

FUNCTIONALITIES

Users can access to vehicles through their Smartphone

Allows vehicle booking in an easy way
