Description

Unity Group offers software development outsourcing and IT consulting services. We deliver end-to-end IT projects and specialized IT outsourcing services to more than 200 clients all around Europe. We specialize in multichannel commerce, digital workplace and mobile solutions development.

Our services cover business analysis, user-centric design, implementation and integration of bespoke business applications, with the unique expertise and understanding of needs of today's always-connected consumers and information workers.

Our core business clients group are retail, distribution and e-commerce leaders. In the area of enterprise business solutions we also work for leading financial institutions and international corporations. We have delivered over 300 projects including m-commerce and mobile app development. One of our core products is a customizable, multi-platform mobile commerce application for retail and distribution sector clients.

We employ over 150 IT consultants skilled in wide breadth popular technologies (i.e. Java, Microsoft.NET, PHP) and touchpoint platforms (iOS, Android, Windows). Our teams are capable of working in both agile and waterfall project methodologies, in on-site, near-shoring and mixed models.

Unity Group was founded in 1997 and is based in Wroclaw, Poland.
