- 04.03.2015 Wednesday (15.15h - 16.55h)

Description

Whiplash is the first compact multi-device able to generate 360degrees three-dimensional movements on two axes. It's also able to give maximum sensations in free fall, acceleration-deceleration and rotation to a user while viewing virtual surroundings from any mobile device of the last generation. Our company specializes in R+D+I
