Areas of Activities

HARDWARE

1. Antennas, aerial, masts and towers
2. Batteries
3. Embedded mobile
4. Encryption and security equipment
5. IP networking equipment
6. Location technologies and services
7. M2M
8. Mobile devices
9. Mobile multimedia devices
10. Modems
11. Power systems

12. Semiconductors
13. SIM cards and Smart cards
14. Telemetry systems
15. Test and measurement equipment

SOFTWARE/INTERNET

1. Application development
2. Content management
3. Data analysis
4. Data compression
5. Messaging
6. Mobile entertainment
7. Mobile security systems
8. VOIP Systems

SERVICES/OTHERS

1. Business support systems
2. Device management
3. Outsourcing
4. Systems integration

Offer

Automotive telematics and infotainment solutions

We are offering customized as well as aftermarket connectivity systems for the automotive industry

Cooperation Offered

1. Sales / Distribution

Request

Automotive IOT solutions

We are searching innovative technologies for the automotive environment.
