

Kaspar Nielsen

Cluster Excellence Denmark

Bilateral Meetings

- 03.03.2015 Tuesday (11.05h - 13.10h)

Description

Cluster Excellence Denmark is the national support function for clusters and innovative networks in Denmark. The objective of Cluster Excellence Denmark is to develop and provide a number of services for the clusters and innovative networks in order to ensure optimum working conditions. By means of competence development and internationalization, and by assisting the clusters and networks on operational and administrative tasks, we aim to make it easier for the clusters and networks to focus on matchmaking and networking nationally and internationally. In close collaboration with Enterprise Europe Network we help our clusters and network find relevant international contacts and partners, facilitate matchmaking events, arrange business and export promotion trips and many other things. The initiative Cluster Excellence Denmark is co-funded by the Danish Agency for Science, Technology and Innovation and the regions.
