Description

In HealthApp we believe in health care professionals and their commitment with the patient. We are working to bring therapists closer to the day to day patient. So, HealthApp is dedicated to improve links between patient and therapist providing trusty information to patients and familiars about therapy and their process. To improve health care systems and bring therapists closer to patients we work with the state of the art technologies in the fields of mobile applications and software.

Offer

Technology for improving links between patients and therapist by the use of mobile applications

In HealthApp we want to respond to different needs of the health sector. We support patients in the monitoring and enforcement of their therapy and the therapist-patient relationship. So the company was created with the aim of responding to particular problems associated with chronic and/or long-term illness therapies.

HealthApp is a young and innovative company committed to using new technologies. So our aim is to help in the treatment of patients by a rigorous and therapists' proven way.

As an start-up we want to evolve with users and make therapy more enjoyable while we facilitate the work of therapists.
