03.03.2015 Tuesday (15.15h - 16.55h)

04.03.2015 Wednesday (9.00h - 11.05h)

04.03.2015 Wednesday (11.05h - 13.10h)

04.03.2015 Wednesday (13.10h - 15.15h)

04.03.2015 Wednesday (15.15h - 16.55h)

**DESCRIPTION** Medtep helps people understand the consequences of poor compliance by showing the real effect of their daily habits, personalized to their situation. uClinics (for healthcare professionals) and uPatient (for patients) are the two multi-platform applications that constitute the technological solution of Medtep.

Dashboards are adapted to each preventive process or pathology. The information aggregated to the platform is shown in a manner that promotes awareness and patient proactivity, while it gives the healthcare professional the proper tools to provide a more personalized and timely care.

**ORGANIZATION TYPE** Company

**ORGANIZATION SIZE** 1-10

**AREAS OF ACTIVITIES**

## SOFTWARE/INTERNET

### 1. Application development

#### Offer

### DIGITAL HEALTH - PERSONALIZED AND PROFESSIONAL FOLLOW-UP

Medtep facilitates the provision of personalized medicine in a disease prevention environment: at the same time it eases the treatment and monitoring of these conditions through the tracking of medical and patient lifestyle-related data. uClinics (for healthcare professionals) and uPatient (for patients) are the two platforms that constitute the technological solution of Medtep.

Dashboards are adapted to each preventive process or pathology. The information aggregated to the platform is shown in a manner that promotes awareness and patient proactivity, while it gives the healthcare professional the proper tools to provide a more personalized and timely care.
